

# Know Your Cleanroom Wipe Materials

ISO 3-4+

## Polyester

Offers durability and exceptional cleanliness. Edges can be melted to prevent loose ends and linting (Common for ISO 3-4+)

ISO 5-7+

## Polyester/ Cellulose blend

Clean, absorbent and an economic choice (Common for ISO 5-7+)

ISO 6+

## Polypropylene

Non-abrasive and solvent resistant. Suitable for wiping sensitive surfaces and components (Common for ISO 6, in some cases ISO 5)

ISO 6+

## Cotton

Economical, durable and environmentally friendly (Common for ISO 6-7+)

ISO 6+

## Foam

Non-abrasive and solvent resistant. Suitable for wiping sensitive surfaces and components (Common for ISO 6+, some variations suitable for ISO 4-5)

ISO 5-7+

## Microfiber (Nylon)

Soft ultra-fine surface, abrasion resistant, durable for multiple use applications (Common for ISO 5-7+, some variations suitable for ISO 4)
